

TGC Teen Camp Consent Form

This form is only for those who have already filled out information in the online registration.

Child's Name: _____

If any medical or other health information regarding your child has changed since the online registration, please note it here:

- I confirm that all information entered in the online registration form, and updated above, is as complete and accurate as possible.
- I give permission to the designated TGC staff drivers to provide transportation to my child for the purposes of participating in paint ball. (Please note paintball also requires a waiver form)
- I understand that if my child has brought or is using illicit substances, pornography, or weapons, that those items will be confiscated and that, or any other dangerous or overly disruptive behavior could result in my child being asked to leave the camp. (Please note: parents/guardians will be contacted immediately to discuss any of these concerns should they arise... although we certainly don't anticipate that).

This is to certify that I, as parent/guardian with legal responsibility for this participant, do consent and agree not only to his/her release of TCMA and all other releases but also to release and indemnify the releases from any and all liability to his/her involvement in TCMA's programs for myself, my heirs, assigns and next of kin. Signatures on this application by the parent or guardian and acceptance of this application by the camp administration shall give the camp director or health manager the right to obtain or approve any medical attention necessary to the camper's welfare or good health and the parent/guardian agrees to pay for all mediations and services not covered by the camper's medical insurance.

Parent/Guardian (print name): _____

Signature: _____ Date: _____
