

Welcome to Trossachs!

For those new to the camp experience, it is like a multi-day sleepover filled with opportunities to make new friends, try out new skills, and deepen your faith. It is important to us that children not only receive a *well-rounded camp experience*, but that they understand:

- they have been created with a purpose
- that they are loved
- that they can have a relationship with God which will give them strength to walk through life's challenges.

Our days begin at 7:30 a.m. and are full of activity. Our lively morning and evening services include music, dramas, object lessons, and life giving messages. Other activities include swimming, archery or riflery, zip line, wide games, and the opportunity to learn a new skill such as dance, visual arts, sports, and a whole lot more. In the past we've made box cars and our own boats!

Explorer Camp lights are out no later than 9:30, and Adventure Camp is no later than 10:30. Once during the week we have a campfire with a few extra surprises.

Please use this space *(and attach paper if necessary)* to discuss any allergies, medications, or special diets your child is on. Please note that we are unable to offer a fully gluten free menu: we are open to discussing how to partner with you to accommodate your child. It is also very important all medical conditions are disclosed and that proper doses of medication (including epipens, inhalers, and prescriptions such as concerta) are maintained and sent to the camp. Following these guidelines and supplying us with as much information as possible helps us to properly staff and plan for the most successful experience for all involved.

Please explain/describe any health condition/challenge which may limit or challenge participation or relationships?

The following is a list of over-the-counter medication which may be on stock at the camp to treat minor health issues. Medication is not given to campers without a careful examination by the camp health manager. Please put your initial beside each you give permission for the camp to administer to your child should the need arise. Please note that medications may not all be in stock: if your child is on a medication it is your responsibility to have it sent with them to the camp.
